

REMARKS

Claims 3, 5,9, and 10 have been amended to correct matters of form. In Claim 10, amendment has been made to provide proper antecedent support for the signal receiver which was already recited in Claim 10 and in Claims 14-16. This element corresponds to the receiving step recited in the allowed method Claim 1. The specific language is referred to in the Summary of the Invention as set forth in page 7, lines 17-20 and clearly represents an inadvertently omitted term expression.

Since these amendments relate only to matters of form, it is requested that the amendments be entered under the provisions of 37 C.F.R. 1.312.

Respectfully submitted,

JULIAN H. COHEN
